

Team readiness for AI

Use this canvas to map how your team will safely and confidently adopt AI. Think about the people, tools, habits and policies that will help make AI work well for your team.

Training needs

How can we identify our team's AI training and development needs on an ongoing basis as the technology and our work evolve?

Building capability

How can we build our team's understanding of AI and their ability to use it safely, effectively and appropriately?

Human oversight

How can we ensure responsibility and human oversight of our AI systems?

Team communication

How can we keep our team informed about AI?

Team voice

How can we support our team to give feedback, raise concerns and share ideas about AI?

Team culture

How can we build a team culture where people have the opportunity and confidence to innovate and experiment safely with AI?
